

A message from Tunde Read & Katie Noon, Co-Heads of School

You all play a key part in enabling the pupils to feel valued, to allow them to explore and be curious and become self aware to enable the young people to achieve their ambitious outcomes. We are very proud and honoured to be leading this vision and work with such an amazing team of people.

We work in a diverse world and Fusion academy is a stepping stone on that journey into this world. We promote and celebrate the diversity of the pupils and you will join us in ensuring the curriculum is the starting point for all learning. You will help in making the curriculum flexible and focused on life long learning and support the young people in their own personal journey. In turn we will support you with your training and coaching needs as we as adults also have a journey to take.

Let's all learn together and build a school based on the values we have set...

- Feel Valued
- Be Curious
- Feel Self Assured
- Be Ambitious
