SAFEGUARDING AND CHILD PROTECTION POLICY STATEMENT FOR LIFE EDUCATION TRUST

1. Introduction

LIFE Education Trust is committed to the safeguarding of all students. The Trust takes student welfare very seriously and work tirelessly to minimise any risk of potential harm students may suffer. The Trust aims to ensure all students feel safe and secure in the knowledge all LIFE Education Trust Staff have their best interests at the heart of everything we do, so our students are able to thrive and reach their full potential.

The Trust Safeguarding Policy can be found via the LIFE Education Trust website, together with Safeguarding contact details for each school within the Trust.

(Keeping Children Safe in Education – DfE, 2023)

This Safeguarding and Child Protection Policy is for all Staff, Parents, Governors, Volunteers and the wider school community of LIFE Education Trust. It forms part of the safeguarding arrangements for our Trust. It should be read in conjunction with the specific and very detailed Safeguarding Policy of each individual school within the Trust as well as the following policies where applicable: Safer Recruitment Policy, Staff Code of Conduct Policy, Anti-Bullying Policy, Behaviour Policy, Health and Safety Policy, Equality & Diversity Policy, Educational Visit Policy, E-safety Policy, Designated Teacher for Looked After Children and previously looked After Children Policy It should also be read in conjunction with Keeping Children Safe in Education (DfE, 2023).

Schools within the Trust will always follow the locally agreed procedures for the management of safeguarding concerns. In most cases these external agencies will be within either the London Borough of Havering or Essex County Council. However, in some instances, these outside agencies could be an alternative Local Authority. This is because referrals are made to the authority of the child's registered home address.

LIFE Education Trust is committed to early help, safeguarding and child protection in order to promote the welfare of all its students. Trustees expect all Trust staff and volunteers to share this commitment. All Trust staff must demonstrate their understanding of how each individual adult working on behalf of the Trust has an active part to play in identifying a child or young person's concerns early - to prevent needs escalating and to protect those at risk from harm. All staff will undertake formal Safeguarding Training, so they fully understand the rules and procedures they are required to follow in the event a concern is raised with regard to a child's safety.

Safeguarding and promoting the welfare of children is defined in Keeping Children Safe in Education as:

- Protecting children from maltreatment
- Preventing impairment of children's health or development
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- Taking action to enable all children to have the best outcomes

2. Statutory framework

However, there are key people within schools and the Local Authority who have specific responsibilities under child protection procedures. The names of those in each school in the Trust with these specific responsibilities (the Designated Safeguarding Lead and Deputy Designated Safeguarding Lead) are shown in each school's specific Safeguarding and Child Protection Policy, which must also be published on the individual school's website.

The Board of Trustees

The Board of Trustees of LIFE Education Trust ensures that the policies, procedures and training in our schools are effective and comply with the law at all times. It ensures that all required policies relating to safeguarding are in place and that the child protection policy reflects statutory and local guidance and is reviewed at least annually.
