Completing your Application

- Complete all parts of the application form
- Use clear, plain English. Do not use all block capitals or all lowercase
- Check your spelling and grammar. Read what you have written back to yourself; does it make sense?
- Tailor your application form to the job you are applying for by carefully reading the job description and matching your skills and experience to the criteria in the person specification (found at the end of the job description)
- The 'supporting information' section is your opportunity to really sell yourself. You can include information here that is not already covered elsewhere in the application form such as your skills, knowledge or experience relevant to the post, a brief explanation of any gaps in your employment
- Always back up what you are saying with tangible and relevant examples of your experience, achievements and any resulting key learning.
